### INDEX to VOL. XI, 1938.

Accidents, Prevention of	126
Air separators for lime	115
Alkali salts, Resistance of cement to attack by sea-water and, by T. E. Stanton, jr., and L. C. Meder	181
Alkalis on Portland cement clinker, Effect of	259
Aluminous cement	196
Analysis at cement works, Gas	165
Artificial hydraulic limes, Continental natural and, by C. R. Platzmann	67
Asbestos-cement sheets, Properties of	182
Ashes from lime kilns, Sorting and separating	105
Aspdin, Memorial to Joseph	276
Autoclave test, Expansion of cement in the, by H. H. Vaughan	208

#### AUTHORS :

Ashkenazi, Gabriel A., on Properties of Portland cement and methods of determining them, 119; on The effect of water in concrete	237
Barona, F., on Low-heat Portland cement	213
Bond, F. C., on Formulae for wet and dry grinding	185
Budnikoff, P. P., and L. G. Gulimova on Effect of granulometric composition and various salts on the heat of hydration and the mechanical properties of Portland cement	44
Flint, Einar P., H. Insley, E. S. Newmann, and J. A. Swenson, on Relation of compositions and heats of solution of Portland cement clinker	264
Gilbert, W., Wh.Sc., M.Inst.C.E., on The cooling of rotary clinker	73, 97
Gronow, H. Elmer von, on The specific surface of cement and ground rock	55
Gulimova, L. G., and P. P. Budnikoff on Effect of granulometric composition and various salts on the heat of hydration and the mechanical properties of Portland cement	44
Gyzi, Hans, on The thermal efficiency of the rotary cement kiln	23, 58, 79, 97, 133, 143
Insley H., and H. T. McMurdie on Constituents of Portland cement	125
Insley, H., E. P. Flint, E. S. Newman, and J. A. Swenson, on Relation of compositions and heats of solution of Portland cement clinker	264
Knibbs, N. V. S., D.Sc., on Design and operation of modern lime works	14, 45, 88, 105, 154, 201, 225
McMurdie, H. T., and H. Insley on Constituents of Portland cement	125
Meder, L. C., and T. E. Stanton, jr., on Resistance of cement to attack by sea-water and alkali salts	181

Nagai, S., on Hydraulic refractory cements, 21; on Studies on mixed Portland cements, 65; on High-alumina cement in Japan	118
Newman, E. S., H. Insley, E. P. Flint, and J. A. Swenson, on Relation of compositions and heats of solution of Portland cement clinker	264
Platzmann, C. R., on Continental natural and artificial hydraulic limes	67
Rockwood, N. C., on Grinding in the cement industry	170
Sanada, Y., on Effect of rate of cooling clinker	212
Schwiete, H. E., on The constituents of clinker	42
Stanton, T. E., jr., and L. C. Meder on Resistance of cement to attack by sea-water and alkali salts	181
Swenson, J. A., H. Insley, E. P. Flint, and E. S. Newman, on Relation of compositions and heats of solution of Portland cement clinker	264
Taylor, K., and L. S. Wells on Heat of solution of lime and magnesia	224
Taylor, W. C., on Phase equilibria studies	247
Vaughan, H. H., on Expansion of cement in the autoclave test	208
Wells, L. S., and K. Taylor on Heat of solution of lime and magnesia	224
Burning, Fuel for lime	14
" small limestone	43
By-laws relating to concrete work, London County Council building	38
Calcium oxide and free calcium hydroxide in Portland cement, Free	230
Cement purchases in the United States, Government	104
Cements, The chemistry of	189
Charging lime kilns	47
Chemical control of raw mixes, Proportioning and	1
Chemist, Standard solutions for the cement	129
Chemistry, International Congress of	64
" of cements, The	189
" X-rays in cement	193
Clinker, Constitution of Portland cement	191
" Effect of alkalis on Portland cement	259
" Effect of rate of cooling of, by Yoshiaki Sanada	212
" Relation of compositions and heats of solution of Portland cement, by H. Insley, E. P. Flint, E. S. Newman, and J. A. Swenson	264
" The constituents of, by H. E. Schwiete	42
" The cooling of rotary, by W. Gilbert	73

granulometric composition and various, by		by Hans Gygi	23, 58, 79, 97, 133, 143
P. P. Budnikoff and L. G. Gulimova	44	United States, Government cement purchases in the	105
Resistance of cement to attack by sea-water		Water in concrete, The effect of, by G. A. Ashkenazi	237
and alkali, by T. E. Stanton, jr., and L. C. Meder	181	Weights and precipitates, Tables for the conversion	
Screening lime	113	of	33
Sea-water and alkali salts, Resistance of cement to		Wet and dry grinding, Formulae for, by F. C. Bond	185
attack by, by T. E. Stanton, jr., and L. C. Meder	181	Works Managers, Institution of	84
Separators for lime, Air	115	X-Rays in cement chemistry	193
Silica bricks in vertical lime kilns	257		

## “CONCRETE SERIES”

# BOOKS ON CEMENT AND CONCRETE

The Publishers of this Journal have an extensive and growing list of up-to-date and really useful books on various aspects of Cement Testing and Cement Manufacture, Concrete and Reinforced Concrete Design and Construction, Design of Special Types of Structures, Shuttering, Estimating and Cost-keeping, Pre-Cast Concrete, and Allied Civil Engineering Subjects.
